## ABOUT

Hello! I am **Riya Nimje**

The fusion of my love for art and fascinatin with the built environment compelled me to pursue architecture,as it allows me to channel creativity into tangible structure that shape experiences and inspire others

Pursuing architecture has profoundly transformed my life as a student.It has expanded my perspective,nurtured my creativity, sharpened my problem solving abilities and most particularly improved my time management skills. As a driven student ,with a strong work ethic,passion for learning, and commitment to personal growth,I am eager to learn and make a meaningful impact on the field of architecture
