

MOHIT BAJANIYA

Hello, I am Mohit Bajaniya, and I have completed my Bachelor of Architecture from SMEF's Brick School of Architecture, Pune.

For me, architecture is more than just creating physical structures; it is about designing spaces that communicate with their users and create meaningful, memorable experiences. I strongly believe that the relationship between design and people defines the true success of any project.

Now, as a graduate seeking a full-time opportunity, I am eager to contribute my skills, creativity, and dedication to a professional environment. I look forward to collaborating with experienced professionals, taking on responsibilities, and gaining real-world exposure that will help me grow as an architect while adding value to the organization.
